# PrintPASS

**Our program provides a window into your print environment using an innovative, simple and secure software solution to collect printing device metrics.**

Leveraging real time information gathered from your print environment, we can collaborate with you on a print management strategy to proactively administer, service and supply your printer fleet.

## Keep Your Office Printing

An ability to print is important to your business, but for too long has been an uncontrolled expense. AAA Business Systems offers an innovative new program to help you proactively administer, service and supply your printing devices.

## PrintPASS™: A Proactive Approach to Print

AAA can take over administration of your printing devices, so all you need to do is print productively. We can help you:

- Assess the efficiency your printing process
- Identify and plan to control costs
- Automate processes and build efficiencies
- Maximize your current printing assets
- Proactively service and supply your devices
- Reduce inventory costs with just in time supplies delivery
- Decrease administrative costs with one monthly invoice

## How it Works

**PrintPASS™** Print Management technology is secure and reliable, and gathers imaging device metrics, such as:

- Page counts
- Device status
- Location
- Serial number
- Trending reports
- Maintenance kit levels
- Device location mapping
- Toner levels
- LCD reading
- Utilization
- Asset number
- Device description
- Power consumption
- Cost per page tracking

## Information is Power

AAA can provide you with detailed information on your printing processes so you can make informed decisions about your assets. Let's take a look at how you currently print, and plan for a more controlled process.

Proactive administration of your print devices can create opportunities to control costs, streamline your processes, and improve your experience with printing.
